

# FieldPro Pull Type Sprayers

1128 B Cormorant Ave, Detroit Lakes, MN 56501 1-855-777-3539 or 701-360-3544

[www.sprayflexsprayers.com](http://www.sprayflexsprayers.com) / [info@sprayflexsprayers.com](mailto:info@sprayflexsprayers.com)

**Less Weight:** Sprayflex Aluminum Booms weigh less than the competitors.

## Versatility: Build it to fit your Needs!

Sprayer can be taken off cart and “upgraded” into a self-propelled sprayer by mounting it onto a truck or (LWB) Vector chassis (not all models will fit Vector). The sprayer can also be setup as either a “Front Boom” or “Rear Boom” pull type by turning the sprayer around on the cart and making adjustments to the axles and other components. You can also build your own “platform” and mount sprayer to it.

**Durability:** Sprayflex Aluminum Box Boom design allows the booms to “flex” without fatigue unlike competitors welded aluminum and steel booms.

**Capacity:** With Boom lengths from **90’ – 150’** & tank sizes from 1500 gallons to 3000 gallons, Sprayflex has a sprayer that will **fit your needs!**

Customer built own “Platform”

## Poly or Stainless Steel Tanks available

Boom Joint “flexes” on two Axis for Superior Boom Protection

Ultimate fore and aft Boom Cushion to dissipate energy for added Boom Protection

4 Link Parallel Center Mast Lift

**Protection:** Spray bodies and tubes are completely encased within the boom, allowing for superior protection against breakage but still allow easy access to them.
